Traffic

General Affairs Department Traffic Staff

Introduction

Traffic accidents are not only incidents that involve financial damage and compensation, but also serious matters that may endanger human lives. Safety must always be prioritized. All groups must recognize their responsibility when using vehicles.

This document was created based on discussions with the university administration office.

During Hokudai-sai, from 6/5 (Thursday) to 6/8 (Sunday), the usual vehicle entry rules of Hokkaido University will not apply. Instead, special rules described in this document will be enforced. Please note that regular car passes or entry for ¥500 will not be accepted.

Hokudai-sai Staff will be in charge of traffic control. If you are cautioned, be sure to follow the instructions of the Hokudai-sai Staff. These are rules for ensuring safety. If a violation is confirmed, it may lead to penalties such as a suspension of your booth.
